

任鸿斌 会长
中国国际贸易促进委员会

REN HONGBIN CHAIRMAN
CHINA COUNCIL FOR THE PROMOTION
OF INTERNATIONAL TRADE

Invitation Letter

I am pleased to inform you that the China Council for the Promotion of International Trade (CCPIT) will host the Fourth China International Supply Chain Expo (CISCE) in Beijing from June 22nd to 26th, 2026.

As the world's first national-level exhibition dedicated to supply chains, the CISCE is guided by the principles of internationalization, market orientation, specialization, and green development. The Expo serves as a platform for trade promotion, investment cooperation, innovation clustering, and knowledge exchange. Its mission is to enhance integration across the entire supply chain, connect businesses of all sizes, promote cooperation among industry, academia, research institutions and end-users, and foster engagement between domestic and international enterprises. By strengthening international partnerships, the CISCE strives to ensure stable and smooth operation of global industrial and supply chains.

The first two editions of the CISCE were successfully held in Beijing in November 2023 and November 2024 respectively, gaining remarkable global recognition. The Third CISCE took place from July 16th to 20th, 2025, at the China International Exhibition Center (Shunyi Venue) in Beijing, achieving unprecedented success and fruitful outcomes. Vice Premier He Lifeng attended the opening ceremony and delivered a speech. Thailand served as the Guest Country of Honor and sent a high-level delegation to attend and exhibit. Over 40 executives from Fortune Global

500 multinational enterprises attended the event, including Jensen Huang, founder and CEO of NVIDIA. 651 exhibitors from 75 countries and regions joined the Expo, attracting over 210,000 visitors, including 25 international organizations and 172 overseas delegations. More than 6,000 cooperation agreements and intentions were signed on-site.

With the theme “Connecting the World for a Shared Future”, the Fourth CISCE will once again showcase 6 chains, i.e., advanced manufacturing, green agriculture, digital technology, healthy life, smart vehicle and clean energy, along with a supply chain service exhibition area. The event encompasses the world’s most significant and dynamic economic sectors. Each chain will be organized to reflect the industry’s upstream, midstream, and downstream segments, with leading global enterprises presenting the products and technologies that are shaping future trends. There will also be a number of supporting events including business forums, matchmakings and B2B meetings.

I warmly invite you to the Fourth CISCE, where you can join other global leaders to share your expertise, strengthen communication, deepen cooperation, and explore mutual opportunities. Together, let us contribute to the stability and resilience of global industrial and supply chains, and drive new momentum for cross-border economic collaboration and innovative development.

I look forward to welcoming you in Beijing.

Chairman

China Council for the Promotion of International Trade
